

Certificate of Appropriateness

PROPOSAL:

Nebraska Neon Sign Co., on behalf of Pure Fitness, requests a Certificate of Appropriateness for work at 6038 Havelock Avenue in the Havelock Avenue Landmark District.

DISCUSSION:

6038 Havelock Ave. was built in 1912-13 as a two story brick structure with the Hecht grocery below and Masonic lodge rooms above. Nebraska Sign Company has proposed the illustrated projecting sign for the building, measuring 36" tall and 18" wide, with an offset of 20' from the building.

I've not yet receive information about the proposed placement on the building, specific materials of the sign, information on illumination (if any), or an illustration of the sign on the building. If this is a nonilluminated or externally illuminated sign of durable materials, positioned so as not to obscure or damage significant features of the building, it would meet district requirements. "Cosmic Cow" has a generally similar sign in the same district that received Commission approval a few years ago.

Until I receive additional information to present to the Commission, I cannot recommend a finding or action.
